**Respondents,**

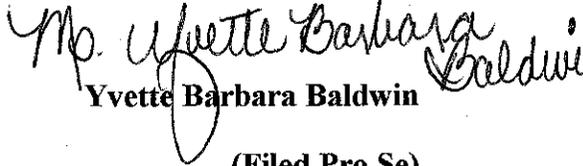

**MEMORANDUM OPPOSING MOTION TO DISMISS**

The memorandum opposing the motion to dismiss is based on civil law procedure that deals with the disputes between individuals and or organizations in which compensation may be awarded to the victim. The Bill of Rights is a series of limitations on the power of the United States Federal government, protecting the natural rights of liberty and property. The equal protection clause, part of the Fourteenth Amendment to the United States Constitution, provides that "no state shall deny to any person within its jurisdiction the equal protection of the laws". The original action in mandamus, case no. 2011-0712; deals with a contract, property dispute that requires the respondents to honor the agreement based on the relator's claim of legitimacy and justification through the relator's sole authority of the property as described in the original action. Property is any physical or intangible entity that is owned by a person. The relator claims the legal title of sole authority to the right of ownership. The agreement of the verbal and or written contract is based on a thorough understanding through agreement, association and communication. The relator request that the court verify the documents and legal account information that the relator has sole legal authority/ownership over. The account information may verify several million dollars in the relator's name. The respondents should seriously consider that a request to dismiss this original action may raise a serious ethical concern.

## CERTIFICATE OF SERVICE
