v.

Netcare Access et. al.,
Respondents/Defendants/Appellees,

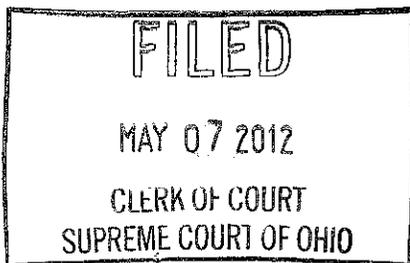

Oral Argument Requested

MOTION TO EXCEED PAGE

Notice of Appeal from the Court of Appeals, Tenth District 11AP-494
Franklin County Court of Common Pleas
Civil Case No.: 10 CV 012622

MOTION TO EXCEED PAGE LIMIT
FOR THE JURISDICTIONAL MEMORANDUM

Petitioner respectfully asks for permission to exceed the page limit for the Memorandum in Support of Jurisdiction or be given a chance to shorten it. The issues involved are factually and legally involved and the court of appeals completely ignored the key facts and Petitioner's legal arguments in support, and without these additional pages in makes it difficult, or it can at least, to see the merits of this petition.

It also involves the application of the discovery rule which appears well not settled as to when and how to apply it. It also seeks to establish that like most other states that the discovery rule applies to defamation causes of action, and Petitioner was able to trace the case law to an early Ohio case, and shows that precedential cases on this should be overturned as the underlying premise for denying application of the discovery has recently changed in Ohio.
